# NEWPORT

**N**

EWPORT, the city by the sea, is known and recognized throughout Europe, as well as in every part of our own country, to be the "Queen of Summer Resorts." No other resort in the world can compare with Newport in the number and beauties of its many magnificent residences, the costs of which have been millions of dollars. In addition to these, there are many beautiful walks and drives, together with a large number of points of historical interest, all of which go to make Newport the most delightful spot in the world to live in during the summer months. The walk along the cliffs, extending for a distance of three and one-half miles by the water's edge, and directly in front of many of the best residences, is beyond question the finest of its kind to be found at any resort.
